

The Taunton Press
Inspiration for hands-on living®

***Prefabulous Small Houses* by Sheri Koones**

Within the pages of ***Prefabulous Small Houses* (The Taunton Press, \$32.00, 240pp; available September 2016)** you will explore the beauty, variety, design, and positive benefits of small-scale, prefab construction. Homeowners, remodelers, builders, architects, and designers will love the innovative technologies and environmentally friendly prefab design ideas presented.

More than 30 prefab homes ranging in size from 350 square feet to 2,000 square feet from around the nation are showcased; 250 stunning color photos and 32 floor plans provide all of the inspiration you need to think small, smart, and prefabulous.

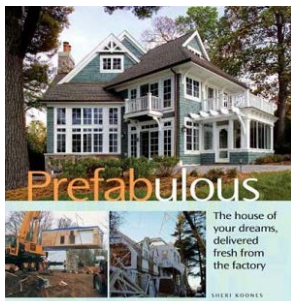

A foreword by actor and environmentalist Robert Redford speaks to the urgency with which we must act to combat climate change and how prefabricated small homes have a

role to play in the challenge.

About the Author

SHERI KOONES is an expert on prefabrication and a best-selling author whose previous books include *Modular Mansions*, *Prefabulous*, *Prefabulous + Sustainable*, *Prefabulous + Almost Off the Grid*, and *Prefabulous World*.
